Honoring Femi's Legacy

At age 10, Femi Tevoedjre underwent a heart transplant after being diagnosed with heart failure. Even from a hospital bed, she gave — wanted to donate her own blood to save another leukemia patient in the hospital, visiting younger patients, and watching over them so their parents could rest. Children's Nebraska named her a Children's Ambassador. In 2019, at 15, Femi lost her battle with cardiomyopathy. In death, she continued to give as an organ donor. In 2023, the Red Cross honored her posthumously with a *Hero in the Heartland Award*. Femi's Heart Foundation was built to carry her legacy forward, guided by empathy, healing, and hope.

Dear Partner,

We are honored to invite you to partner with Femi's Heart Foundation as a sponsor of the Gramercy Gala 2026. Your sponsorship goes beyond funding an event — it fuels hope, creates opportunity for young people, and extends compassionate care to underserved communities locally, nationally, and globally, including a planned expansion to Burkina Faso.
